Japan Analytical Instruments Manufacturers' Association  
Technical Affairs Committee & International Affairs Committee

**Exhibition for Cutting edge Scientific/Analytical Systems & Solutions: JASIS 2020**  
**“Insight into the Future” event for International Students**

JAIMA (Japan Analytical Instruments Manufacturers' Association) is an industry group formed with analytical and measuring instruments manufacturers in Japan and the world. Through analytical techniques, we aim to develop an industrial society, solve social issues in the environmental field, and improve the standard of living in the life science field. For that we make a group of companies that manufacture / sell analyzers and measuring instruments which are used when analyzing materials, environmental samples, foodstuffs, bio products, pharmaceuticals, etc. in your laboratory.

JAIMA holds “Exhibition for Cutting edge Scientific/Analytical Systems & Solutions” - one of the largest scientific exhibition in Asia – every year in collaboration with Japan Scientific Instruments Association. This event is to introduce latest technologies and products of the member companies and related organizations.

This year, in order to promote global development of technology and products, JASIS2020 holds (venue at Makuhari Messe from November 11<sup>th</sup> to 13<sup>th</sup>) a special event called “Insight into the Future” for the international students. On November 12<sup>th</sup> P.M., we plan to have about 2 hours of special program to introduce the member companies of JAIMA, and will have a booth tour. Also discussion session with a staff from JAIMA member companies will be scheduled which enable the students communicate directly with the staff not only about the products technologies but also about the global business.

We look forward to welcoming the international students to Makuhari Messe and wish them to take this opportunity to experience the analytical techniques and global business development.

JASIS 2020 registration here ----- <https://www.jasis.jp/en/visitor/jasisregist.html>

**( Application to this program, “Insight into the Future”, will be available from October 7<sup>th</sup> )**

Date: Thursday November 12<sup>th</sup>, 2020 at 12:30 or 14:30 (either time)

Place: Makuhari Messe
