15:00-16:30 (JST)

# ONLINE LECTURE & STUDENT EXCHANGE

EDI Program

## Section 1 - Online Lecture

### Beyond “Which Language?” : Rethinking linguistic diversity from translingual family perspective

**Akiko Hiratsuka**  
Lecturer

University of Technology Sydney

This session will offer a translingual perspective on family language practice, moving beyond fixed language boundaries to explore linguistic, cultural and semiotic resources. It considers identity, relationships and children's agency beyond language transmission, inviting participants to reflect on their own family linguistic resources and to discuss linguistic diversity from a grassroots perspective

## Section 2 - Student Exchange

Join us for an online exchange with international students who have come to Japan through the EDI Program and other students.

Everyone is welcome, including non-EDI students. Come and enjoy meeting and interacting with international students from around the world!
