

日本での交換留学

University of central Lancashire

Tina

I am writing about my university and experience. I am currently studying Japanese, and this is my first time going to Japan and my first student from Uclan University (university of central Lancashire) .It's very quiet even though it's located in the centre of Tokyo. It's safe here and I feel safe too.

For me, the local train stops at Myogadani Station, two stations from here are Ikebukuro. My friend and I often went to Ikebukuro, ate dinner, ate, and bought

various kinds of shopping. I went to various places in Tokyo. I went to Shibuya, Ikebukuro, Shinjuku, and Akihabara, and I made lots of new friends. I climbed Mt. Takao with my friends, and we were recommended by our composition teacher. I'm afraid of heights, but I recommended taking a stairlift as it never goes far from the ground. They have cats and turtles on this

campus, there is around five cats and six turtles. It's really cute to see an Ocha no mizu woman feeding a cat and showing him love. They even have a society to protect cats, as someone who loves animals it is wonderful to see. This thermos flask is based on the most well-loved cats of Ocha no Mizu. Many of my friends want a product of Ochanomizu with the cats on.

I have nine classes at Ochanomizu University. I'm not used to lessons in only Japanese, so you should quickly learn Japanese quicker as you are constantly using Japanese. The teachers hope that the students will succeed. We learned kanji, how to write, and how to present. The homeroom is very useful for any problems and for filling out any forms that need filling in. The teachers always helps the students, and they listen to feedback. I learned the difference between English presentations and Japanese. The classes are difficult, but you will receive support in many ways.

To sum up the above, studying abroad this time was difficult, but I think I had a lot of fun.

Yes, I want to thank all the teachers. Thank you to my homeroom teacher, Mr. Matsuda and Mr. Hagiwara. Finally, thank you to the Director of the International Division, the Center for International Education, and the dormitory staff for all your help. Mr. Hagiwara was very cooperative in recommending books and giving advice. Lastly, thank you to your friends. I am especially grateful to my friends, Ann, Zeke and Patty.
