18 days of Extraordinary Adventure With Women Scientists of the Future

The ELIS Expanding Horizons

Ewha-Luce International Seminar (ELIS): Expanding Horizons is an intensive residential internship program for women graduate students in STEM.

This summer seminar is scheduled to be held annually for three consecutive years from 2015 to 2017 at Ewha Womans University's campus. The project aims to bring together 24 highly talented women graduate students in **STEM (Science, Technology, Engineering, and Mathematics)** from the United States and East Asia through various training programs, sharing professional knowledge and networking that will expand horizons for the future of scientific community.

The program focuses on various issues surrounding women, science, convergence and etc. The themes are structured into 4 modules:

Global Leadership

Diagnosing, Introspecting, Presentation Skills Workshop, Global Communication Skills, and Understanding Leadership via a Multidimensional Approach.

Empowerment

Understanding Gendered Innovation, Overcoming Under-representation as Women Scientists, Healthy Body and Mind, and Networking via Academic Presentations.

Networking/Cultural Exchange

Opportunity to Experience and Exchange Asian Culture and Arts as well as Networking skills and Expanding Networks of the Scientific Community with Participants, Faculty Member of Ewha and Many Mentors Across Various Disciplines.

Vision

Encouraging Participants to Establish Global Vision as Scientists via Discussions on Contemporary Issues, History, Gender Reflected Science, Facilitating the Emergence of these Values into Responsible and Sustainable Scientific Practices.

The Program of ELIS 2016

The ELIS 2016 consists of 18 days of various programs, including:

Open Forum is the core of the program, designed to empower young scientists through their own presentations in groups and discussions with

Industrial Site Visits are field trips that are designed to experience the implementation of science in industries as well as to taste the Korean culture.

The 2nd ELIS : Expanding Horizons 2016

The Henry Luce Foundation

was established in 1936 by Henry R. Luce, the co-founder and editor-in-chief of Time, Life and other prestigious and well-known magazines. The foundation seeks to bring important ideas to the center of American life, strengthen international understanding and foster innovation and leadership in academic, political, religious and art communities.

As part of its 75th anniversary celebration project, the foundation has decided to support Ewha Womans University for three years. Through this project, Ewha and the Henry Luce Foundation aims to strengthen the capacity of next generation women leaders in science in the US and East Asia, further expanding their visions for the future of science.

Ewha Womans University, Seoul, South Korea

As the capital city of South Korea, Seoul was named a UNESCO City of Design in 2010 and is part of the UNESCO's Creative Cities Network. Dynamic Seoul is a fantastic combination of the ancient and modern, packed full of experiences to visit, taste and feel in a surprisingly compact metropolis. Founded in 1886, Ewha Womans University has supported women in STEM disciplines throughout its history. An institution which started with a single student 130 years ago, Ewha has grown to be the world's largest and most comprehensive university for women today. As the first women's university to establish an engineering college, it proudly sees itself as the frontier in attaining 'Gender Equality', as dubbed by the neighboring universities in Asia. Ewha is dedicated to supporting not only its own students, but the international community of women in STEM.

Come and meet scientist peers from the U.S. and East Asian countries in the midst of Korea's Dynamic culture!
